Visit our website at winstonfoodservice.com to learn more about Winston Foodservice and how our product innovations can benefit your operation. You can also order parts, locate servicers, access technical information, and much more!

We take pride in building the most advanced cooking and holding equipment in the foodservice industry. We are just as proud of our customer service. Winston has several ways for you to obtain information, get questions answered, or arrange service.

Toll-Free Customer Service – 1.800.234.5286

Prefer to speak with someone live? Our customer service line is staffed by knowledgeable, trained professionals who are ready to answer any question. Call 1.800.234.5286 to obtain information on an order, ask questions about our equipment, or discuss an issue with one of our expert technicians. Our customer service center operates weekdays 8:00 am to 5:00 pm Eastern Standard Time.

Our customer service technicians are on call until 8:00 pm EST. International inquiries can call +1.502.495.5400.

Nationwide Service Network

Winston has one of the best service networks in the nation. Whether you need to maintain, repair, or install equipment, world-class service is just a phone call away. Our service partners utilize service and distribution centers throughout the continental United States, and in more than 100 countries globally, with over 400 technicians, to quickly get your equipment back in operation.

If you need service, please have the following information on hand when you contact us:

1. Model and Serial # (located on white equipment ID label)
2. Your name
3. Company name
4. Company address
5. Company phone
6. Type of problem

If your equipment is out of warranty you can call the servicer of your choice. You can also call Winston at 1.800.234.5286 or visit winstonfoodservice.com to find an authorized servicer near you.

HOW TO ORDER

When you place an order, we'll need to know the following information:

- **Model number**
- **Specify door hinging** - Most cabinets offer the option of left or right hinge.
- **Specify caster type** - Wheeled equipment offers different diameter casters. Refer to individual model pages for available options and pricing.
- **Specify electrical** - Voltage and phase.
- **Other options** - Most models are available with several options, such as windows, pass-thru doors, different electrical, etc. The Cook & Hold Ovens and Thermalizers offer options on controls. Refer to individual model pages for availability and pricing.

Quick Ship Program

A Quick Ship Logo in bold-faced type next to a model number indicates that the model is in stock and ready for immediate shipment. There is a domestic Quick Ship Logo (**DS**) corresponding to U.S. orders.

Our goal is to ship Quick Ship orders within 48 hours of receipt of an approved order. If we are unable to perform to that standard, we will notify you immediately (via our sales representative) and give you the option of cancelling the order. There is a possibility that unexpected demands may occasionally cause us to be out of stock on certain items. Quick Ship availability will be confirmed at the time of the order.

Domestic Quick Ship Models:

MODEL	MODEL	MODEL
CAT522-HR-5-208/60 p.34	HA4522-HR-5-120/60 p.19	HBB5N1-120/60 p.24
F662A9-120/60 p.10	CAC507-HR-3-208/60 p.28	

Standard Lead Times

STANDARD PRODUCTS – items on this price list, not part of the Quick Ship Program. Standard lead time - three weeks (may vary).

CUSTOM PRODUCTS – items not on this price list. Standard lead time (if approved) six to eight weeks (or longer for a new design). A 10% minimum upcharge will be applied in addition to calculated price.

Custom products require that a Custom Model Request Form be completed and approved before the sale of the model.

One Year Limited Warranty

All equipment and replacement parts come with a one-year limited warranty from the date of delivery to the end user or purchaser, or 18 months from the date of manufacture, whichever comes first. The warranty may be voided if there is a failure to clean the equipment. Proof of purchase and installation are required. See ZAP Warranty Agreement on page 41.

Extended Warranties

Extended, limited warranties are available and must be purchased while the equipment is still under warranty. Up to two additional years beyond the one year standard warranty period may be purchased for a maximum of three years. Extended warranties are covered under the terms of the Zap Warranty Agreement (see page 41). All extended warranties purchased after the original purchase of the equipment will incur an additional 25% markup.

IMPORTANT - Protect your warranty!

Proper installation is the responsibility of the purchaser, and is not covered by the warranty. Products must not be installed in locations exposing them to excessive heat sources, ambient temperatures above 100°F (38°C), or contaminates detrimental to the equipment components (such as caustic solutions, high moisture, water or grease-laden vapors near electronic components, etc.).

"We are a family business. We believe in the entrepreneurial spirit, strong drive, and initiatives of individuals. The company was founded on the idea of an individual and flourished through the energy and sacrifice of family members and countless other individuals. Our commitment to those individuals is indistinguishable from that of our own family members. Together, we shall share the work, sacrifices, challenges, and triumphs of the business."

Winston Shelton
Founder/Chairman

WHO WE ARE

A lot of companies will tell you they "think outside the box." But that's not us – **we never actually fit in the box** to begin with. We've always enjoyed the position of being just a little different in our approach. Some have even called us a **cult**. We don't mind. In fact, we're sort of **proud of it**.

ZAP WARRANTY AGREEMENT

Limited one year warranty (excluding gaskets, lamps, hoses, power cords, glass panels, fryer baskets, batteries, and evaporators). Warranty disclaimer for failure to clean.

WINSTON EXPRESSLY DISCLAIMS ALL OTHER WARRANTIES, EITHER EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE AND ANY IMPLIED WARRANTY OF MERCHANTABILITY.

Ask us for a complete warranty disclosure or go to:

www.winstonind.com/documents/4272V089_zap_warranty_agreement.pdf

Terms and Conditions of Sale for Winston Industries' products are available here:

www.winstonind.com/documents/4272X833_terms_and_conditions_of_sale.pdf

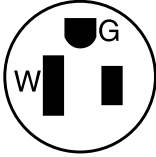

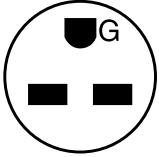

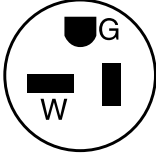

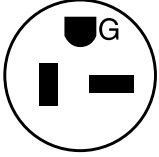

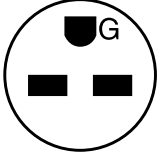

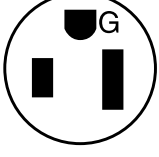

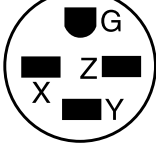

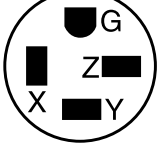

Both the Warranty and Terms and Conditions of Sale are integral to this document.

Buy Winston Parts Online!

Parts and accessories for our products are available to purchase through our online, secure site – it's your one-stop shop for genuine Winston replacement parts. These parts are designed specifically for our products and can help you save on costly repairs while maintaining valuable warranty coverage. Parts ordered online receive a 25% discount off list price.

Total amp draw 16.2 to 24.0 U.S./Canada, 3-Ph.	208V	15-30P		
	240V	15-30P		
Total amp draw 24.1 to 40.0 U.S./Canada, 3-Ph.	208V	15-50P		
	240V	15-50P		

Note: Plug size is not generally specified for international sales. Fryers are not supplied with cordsets or plugs.

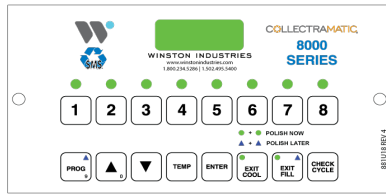

UL Testing Method - Electrical: Much of the equipment listed in this price list was tested in accordance with UL 197, Eighth Edition, Sec. 41, Par. 41.2, Page 57, issued June 1, 1993. The power input was measured with the equipment at intended operating temperature under full load conditions while connected to a supply at the rated voltage, hertz, and phase. The input average current to the equipment did not exceed the allowable amperage for the circuit listed. Also, the maximum power input did not exceed 105% of the marked rating.

Several of our HA cabinets draw approximately 19 amps, but are rated for a 20 amp circuit. This is acceptable on our cabinets. When UL tested the equipment they used an Input Average test, which allows the units to be equipped with a 5-20P NEMA plug and, therefore, be run on a 20 amp circuit.

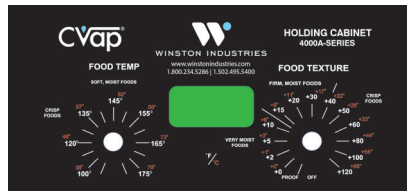

UL Sanitation Standard (in lieu of NSF): Winston Industries utilizes Underwriters Laboratories, Inc. to certify our equipment to NSF standards. UL has been certifying foodservice equipment to ANSI/NSF standards for over 20 years. Currently, UL is accredited by ANSI to evaluate products to ANSI/NSF 2-8, 12, 18, 20, 26, 37, 59, and C-2.

International Voltages: Winston can provide equipment that meets the voltage requirements of many nations. Please contact us to find out availability of your voltage requirements.

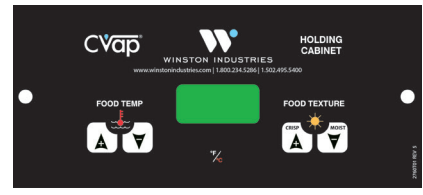

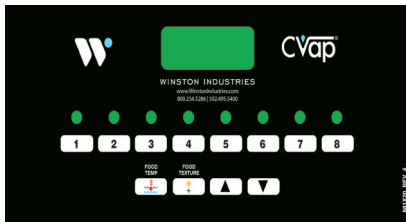

8-Channel Programmable 8000 Series Process Control - Used on Fryers.

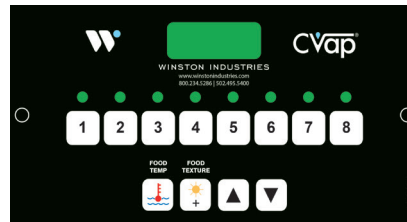

Electronic Differential Control - A-Series Used in Holding Cabinets.

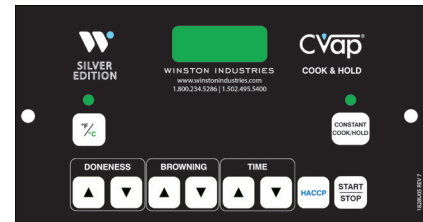

Electronic Differential Control - B-Series Used in HBB Hold & Serve Drawers, and Holding Cabinets.

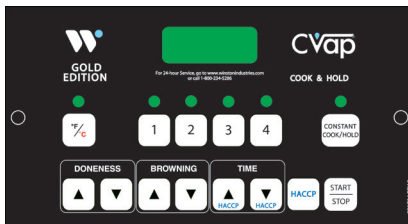

8 Timer Electronic Control - Used in HBK and HBL Series Hold & Serve Drawers.

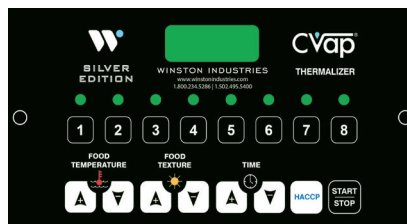

Programmable 8-Channel Differential Control - Used on Universal Holding Bin (UHB) Cabinets.

Single Channel Electronic Programmable Control - Used in Silver edition Cook & Hold Ovens.

Multi-Channel Electronic Programmable Control - Used in Gold edition Cook & Hold Ovens.

Multi-Channel Electronic Programmable Control - Used in Thermalizers.
